MERIDIAN

Meridian features beautiful modern shapes combined with earthy washes of soft green and warm blue, resulting in a stunning collection of dinnerware. Each piece of the Meridian collection features another speckled design, which it received due to the reactive glazes that were applied during the finishing phase. Whether you mix the different colors or not, the collection will always surprise you!

PARIS

With the double-walled items from the Paris collection you can enjoy your favourite drink for an extra long time. Because the glasses are made of borosilicate thermo glass, the glasses are resistant to both cold and warm liquids. Borosilicate glass is a strong heat-resistant glass that weighs less than normal glassware, making the glass light and moreover extra strong. The stylish double-walled design provides an insulating layer, so that hot drinks stay hot for a longer time and cold drinks cold, without condensation.
